DRYWALL FINISHING
SYSTEM**

Introducing BAZOOKA® Continuous Flow

Ames and Graco introduce the BAZOOKA Continuous Flow for high volume production drywall finishers. Over three years in development and extensively job-site tested, the BAZOOKA Continuous Flow is the innovative solution for the drywall finishing industry.

Ames Taping Tools

For over 70 years, Ames has served the needs of the drywall industry through its commitment to market development, product innovation and service delivery.

Ames pioneered the development of automatic taping and finishing tool technology in the 1930's, dramatically improving the speed, quality and efficiency of the professional finisher. Ames leads the world in the design, manufacture and distribution of automatic taping and finishing tools. With the introduction of the BAZOOKA Continuous Flow, Ames extends its history of innovative solutions for the drywall finishing industry.

Graco

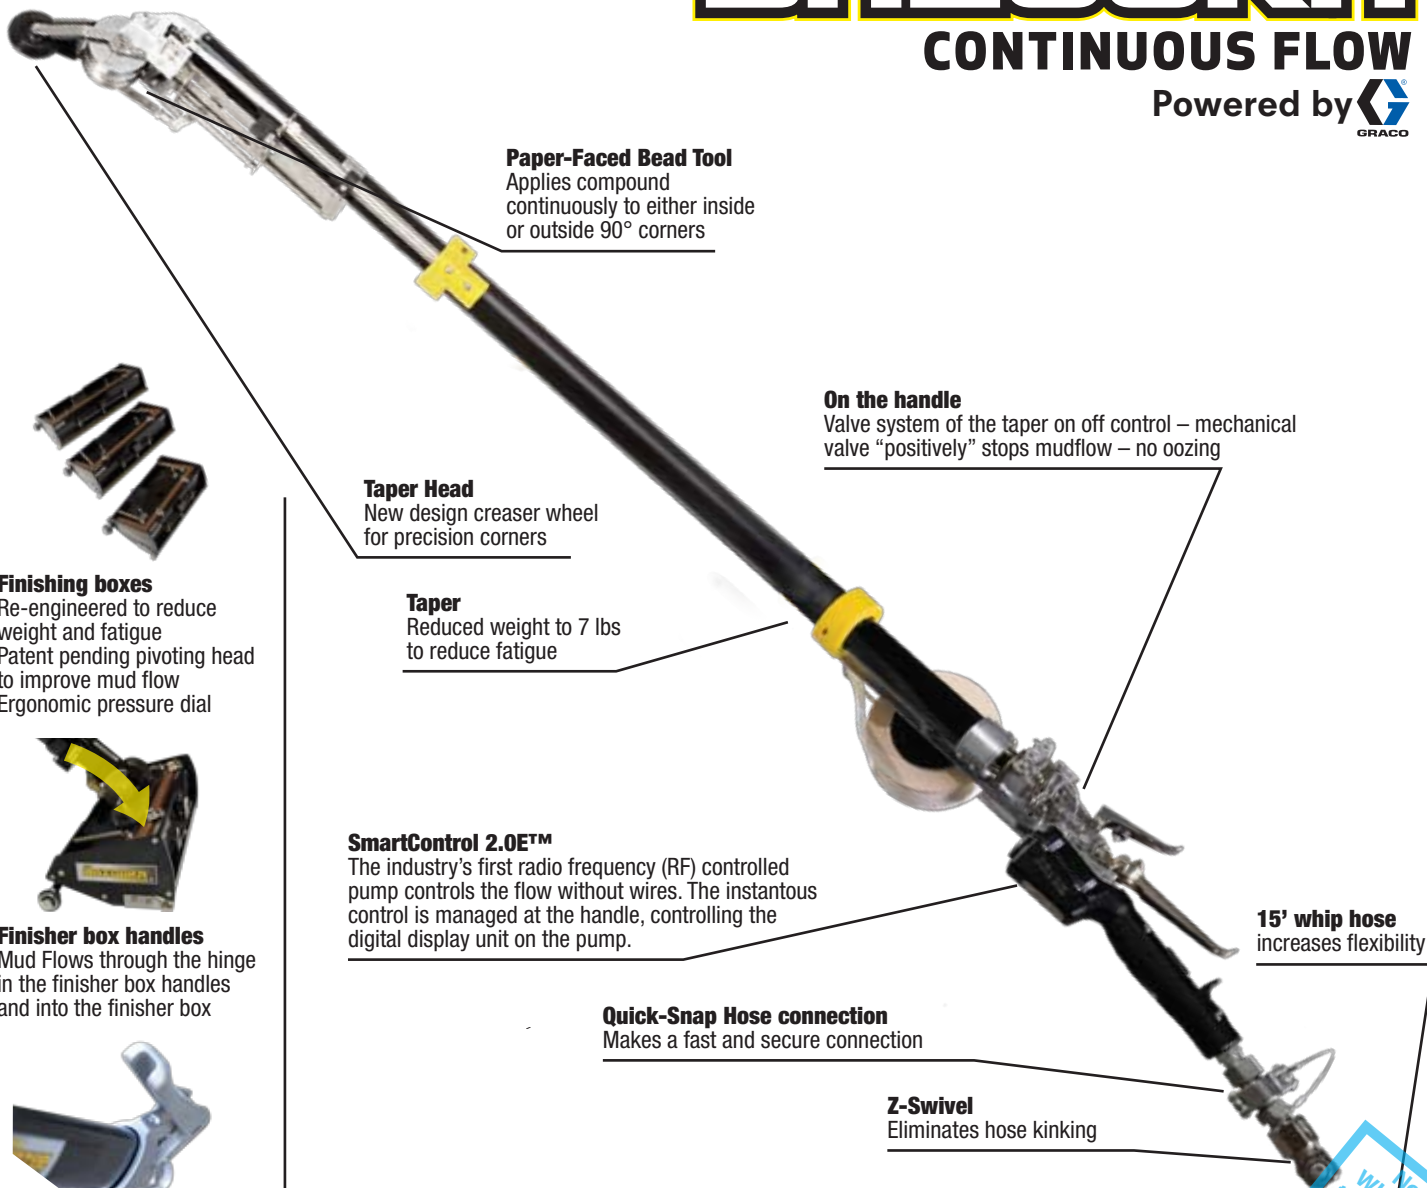

Founded in 1926, Graco is a world leader in fluid handling systems. Graco products move, measure, control, dispense and apply a wide range of fluids used in commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, sealants and adhesives, along with power application equipment for the contractor industry. With the introduction of the BAZOOKA Continuous Flow, Graco continues to provide innovative solutions for the drywall finishing industry.

Innovation

NEW
BAZOOKA[®]
CONTINUOUS FLOW
 Powered by 

Paper-Faced Bead Tool
 Applies compound continuously to either inside or outside 90° corners

On the handle
 Valve system of the taper on off control – mechanical valve “positively” stops mudflow – no oozing

Taper Head
 New design creaser wheel for precision corners

Taper
 Reduced weight to 7 lbs to reduce fatigue

SmartControl 2.0E™
 The industry’s first radio frequency (RF) controlled pump controls the flow without wires. The instantaneous control is managed at the handle, controlling the digital display unit on the pump.

15' whip hose
 increases flexibility

Quick-Snap Hose connection
 Makes a fast and secure connection

Z-Swivel
 Eliminates hose kinking

Note:
 Whip Hose to be Added

Finishing boxes
 Re-engineered to reduce weight and fatigue
 Patent pending pivoting head to improve mud flow
 Ergonomic pressure dial

Finisher box handles
 Mud Flows through the hinge in the finisher box handles and into the finisher box

Handle
 New tear-drop shape is ergonomically designed to be easier to grip and reduce fatigue

Bazooka-Lock
 Securely locks the tear-drop handle to the finishing box

Re-Engineered Finishing Box System
 Apply finish coats continuously while you control the output.
 Continuous Flow reduces strain required to maximize finish.

Unmatched Corner Finishing
 Finish angles with remarkable speed and quality.
 Corner Finishers apply continuous coats with a smooth tapered finish.

New Paper-Faced Bead Tool
 Apply compound continuously to inside and outside 90° corners.
 Eliminate the need for a manual mud hopper.

THE ULTIMATE DRYWALL FINISHING SYSTEM

Endurance™ Pump

Endurance Pump features a horizontal design for easier pump loading, long life V-Max Blue™ packings and Chromex™ pump coating to create the most rugged and reliable pump on the market.

MaxPower™ Motor

The MaxPower motor is totally-enclosed, fan-cooled design that protects the internal components from dirt, dust and mud. It is a brushless DC motor that never needs brushes, and Graco stands behind it with a lifetime warranty.

Advantage Drive™ System

The critical link between the motor and pump, the Advantage Drive System of hardened steel gears is the longest lasting drive in the industry, and Graco stands behind it with a lifetime warranty.

25 gallon hopper

Includes air tight lid to preserve compound for next day use

Max Flo™ Design

Max Flo fluid passages and large ball check efficiently loads thick compound

Tool Wash Station

Power flushes all of the job site tools

Tool filling Station

Fills conventional taping tools even when the pump is running

Internal Hopper Filter

Allows mud from the job-site to be recycled without wipe-down trash

Extreme-Duty Steel Frame and Flat Proof Tires

Protects critical components from job-site damage

Includes integrated tool tray for convenient storage of tools and accessories

Productivity

Maximize Time on Wall

**THE
ULTIMATE
DRYWALL FINISHING
SYSTEM**

Increase profits

Win more jobs and improve job cycle completion

Enhance safety

Reduce worker fatigue

Boost productivity

System optimized for speed and control

Eliminate wasted time

No filling tools or moving compound around the job site
Only clean it when the job is done

BAZOOKA Continuous Flow Productivity

Hand Finishing

3 hours &
30 minutes

Conventional Taping Tools

2 hours

BAZOOKA Continuous Flow 1 hour & 15 minutes

FINISHING 2500 SQUARE FEET

Special Offer

**THE
ULTIMATE
DRYWALL FINISHING
SYSTEM**

Demo

- We'll show you

4 Day Free

- We'll train You

16 Day Rental

- You'll prove it to yourself

Buy

- Receive 1 year free parts and maintenance
- We'll supply a free loaner during any servicing

Call 888-BAZOOKA for additional product information or to request a demonstration.
