YOUR COMPLETE DRYWALL FINISHING TOOL SUPPLIER

OUR STORY

AMES Taping Tools is the nation's leading provider of automatic taping and finishing (ATF) tools, supplies and training to the professional drywall finishing industry.

With a network of more than 110 company stores and franchised locations throughout the United States and Canada, we support residential and commercial interior finishing contractors with the industry's largest tool rental operation.

In 1939, we invented ATF tool technology and continue to leverage our industry leadership to improve the professional drywall contractor's speed and productivity.

CUSTOMER FOCUS

Customer service and training have been cornerstones for us since our founding nearly 80 years ago, when Bob and Stan Ames travelled to jobsites helping contractors understand the time-savings and efficiency advantages offered through automatic taping technology. Today, we continue to educate tradesmen about the productivity benefits of automatic taping tools through product knowledge training and demonstrations available at the job-site or our corporate training center in Stone Mountain, Georgia.

SIMPLICITY

Our flexible tool rental program allows customers to rent only the equipment needed for a particular job. The fully-calibrated tools are always job-ready, allowing contractors to minimize down time. Poorly maintained tools are not only a drag on profitability, but a liability that inevitably results in substandard quality, time-consuming repetitions or job site injuries.

SUPPORT NETWORK

As the original drywall "superstore," we offer contractors the most comprehensive selection of drywall finishing tools, supplies and equipment. Conveniently located AMES stores offer branded and private label hand-finishing drywall tools, supplies and accessories – making our stores a "one-stop shop" for interior finishing contractors.

VOLUME DISCOUNTS

We offer a range of flexible financing plans as well as several short- and long-term rental programs that can cut tool costs up to 30 percent. In addition to providing the flexibility to "staff up" to support large projects, our inventory management tools help contractors track costs and equipment by project or by individual tradesmen. Daily, weekly and long-term equipment rental agreements also help to minimize jobsite downtime and productivity losses by immediately changing out a defective or broken tool with a clean, factory-fresh replacement.

TRUSTED BRANDS

TAPING

- 03** Minizooka® Automatic Taper
- 05** Bazooka® Automatic Taper
- 05FT** Bazooka® Automatic Taper
- 07** EasyClean® Automatic Taper (feature)
- 08** Maxizooka® Automatic Taper

FEATURES

Simultaneously applies tape and correct amount of joint compound

- Stainless steel, anodized aluminum for lightweight, durability
- Reaches 10' (3m) ceilings without the need for benches, scaffolding
- Smoothest operating automatic taper available
- Integrated flanges provide positive, ergonomic grip when cutting or advancing tape, reducing user fatigue
- Longer Control Tube makes it easier to cut tape when working on higher ceilings
- Enclosed Rollers provide smoother operation and protect hands
- Attached "Keeper" speeds changing of tape rolls and prevents loss of Keeper
- "Twist-off" removal of tube protector for easy cable and plunger access
- Tube protector provides comfortable hand grip for better control and steering and superior protection for end of tube

SPECS

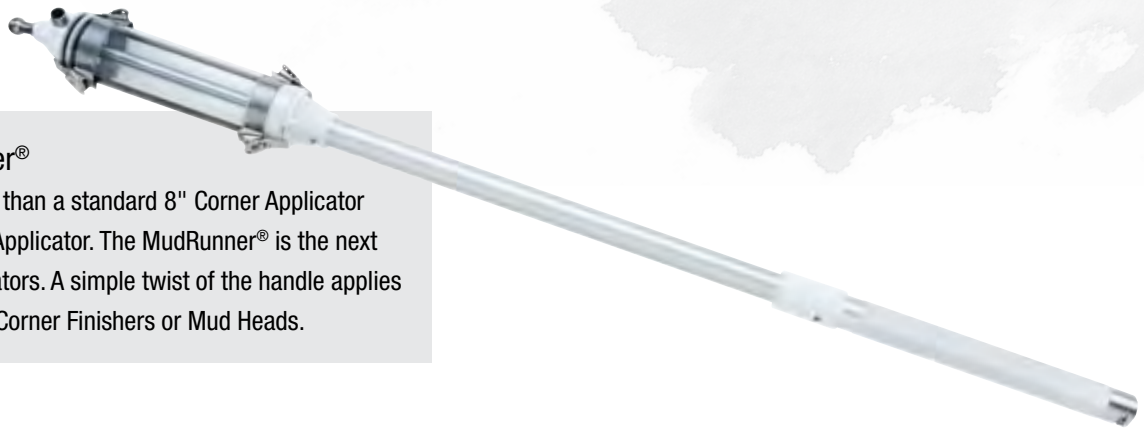

Empty Weight 6.25 lbs
 Full Weight* 16.7 lbs
 Coverage (approximate) 78' per load
 *Full weight includes a 250' roll of tape.

15E Inside Corner Roller
 Used immediately after the Automatic Taper, the stainless steel rollers firmly embed the tape into the corner in preparation for the corner finisher.
 Use with 82, 82RE, 88R and 97 Handles –
 Not Included

14 Mudrunner®

Holds 50% more compound than a standard 8" Corner Applicator and 70% more than the 7" Applicator. The MudRunner® is the next generation of Corner Applicators. A simple twist of the handle applies compound effortlessly with Corner Finishers or Mud Heads.

63 2" EasyClean® Nail Spotter
68 3" EasyClean® Nail Spotter

Nail Spotters fill the impressions left by fastener heads, removing the excess compound at the same time. Use the 2" for the first application and the 3" for the second or third application.

- Fills an entire row of fastener impressions in one pass
- Rugged, stainless steel construction
- Uses a skid instead of wheels to extend blade life

Use with 81 and 88N Handle – Not Included

50 7" Corner Applicator
35 8" Corner Applicator

The Corner Applicators supply joint compound to Corner Finishers and Mud Heads. They feature a stainless steel cone for long life.

- Attaches securely to Corner Finishers and Mud Heads
- Ball joint allows flexible positioning of attachment
- Easily reaches high angles from the floor

Use with 88A, 83 and 97 Handle – Not Included

40 2" Corner Finisher
45 3" Corner Finisher
48 3" EasyRoll™ Adjustable Corner Finisher
48X 3½" EasyRoll™ Adjustable Corner Finisher

Used with the MudRunner® or Corner Applicator or simply with a handle to apply joint compound to internal corners, finishing both sides in a single pass.

- EasyRoll™ wheels for the smoothest action on the wall
- Stainless Steel frames
- Spring loaded action compensates for imperfect angles

Use with 84, 84RE, 88F and 97 Handle – Not Included

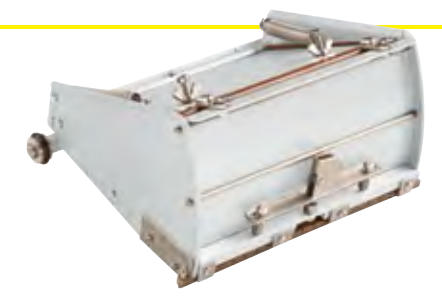

Finishing boxes consistently dispense the appropriate amount of joint compound and feather both edges in a single pass.

20 7" Flat Box
25 10" Flat Box
30 12" Flat Box

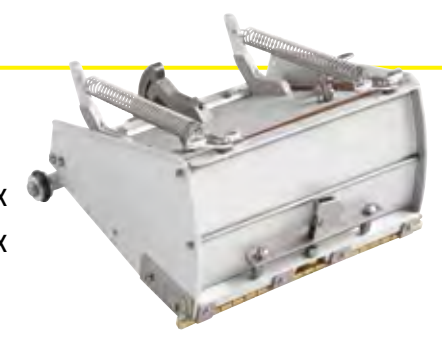

- Durable, lightweight aluminum box
- Hardened steel blade with brass blade holder and adjustable crown settings
- Pivoting axle helps to compensate for uneven walls

22 7" EasyClean® Box
27 10" EasyClean® Box
32 12" EasyClean® Box

- Durable, lightweight aluminum box
- Hardened steel blade with brass blade holder and adjustable crown settings
- Pivoting axle helps to compensate for uneven walls

24 7" Power Assist™ Box
28 10" Power Assist™ Box
33 12" Power Assist™ Box

- Durable, lightweight aluminum box
- Hardened steel blade with brass blade holder and adjustable crown settings
- Pivoting axle helps to compensate for uneven walls

HANDLES

PUMPS & ADAPTERS

- 8034W** 34" Box Handle
- 8042W** 42" Box Handle
- 8054W** 54" Box Handle
- 8072W** 72" Box Handle

Securely attaches to all finishing boxes for superior control and finishing.

- Brake design makes it easy to operate finishing boxes
- Adjustable grip

- 8134W** 34" EasyFinish® Handle
- 8142W** 42" EasyFinish® Handle
- 8154W** 54" EasyFinish® Handle
- 8172W** 72" EasyFinish® Handle

Securely attaches to all finishing boxes for superior control and finishing. The ergonomic bent handle design provides increased leverage when working overhead and helps to activate the Power Assist™ mechanism.

- Brake design makes it easy to operate finishing boxes
- Adjustable grip

- 88E** Box XTender™ Handle

Provides flexible reach when using all finishing boxes.

- Longest extendable box handle – from 41" (1.04m) to 63" (1.60m)
- Strongest extendable box handle in the industry
- Adjustable brake grip to fit any size hand

- 82RE** Corner Roller Extension Handle
- Provides flexible reach when using Corner Rollers.

- 84RE** Corner Finisher Extension Handle
- Provides flexible reach when using Corner Finishers.

- 81** Fiberglass Handle

- 88N** Xtender® Nail Spotter Handle Extension Handle (Not pictured)
- Provides flexible reach when using Nail Spotters.

- 84** Corner Finisher Handle (Not pictured)
- 88F** Corner Finisher Extension Handle

Support Handle designed to work with the Corner Finishers.

- 83** Corner Applicator Handle

- 88A** Corner Applicator Extension Handle
- Support Handle designed to work with the Corner Applicators.

- 82** Corner Roller Handle

- 88R** Corner Roller Extension Handle
- Support Handle designed to work with the Corner Roller.

- 97** Unihandle

Support Handle designed to work with multiple attachments.

- 72** Loading Pump
- 76** EasyClean® Pump

Quickly fills your tools with joint compound (with 90A adapter).

- EasyClean® design with removable tube makes maintenance and cleaning easy
- Low friction components for increased suction
- Includes coarse and fine screens

- 86** Gooseneck

Attaches to pumps to fill all AMES automatic tapers.

- 86 attaches to 72 and 76 Pump

- 90A** Filler Adapter

Used to fill all AMES finishing boxes, Nail Spotters, Corner Applicators and the MudRunner®.

- Attaches to 72 and 76 Pumps

Endurance™ Pump

Endurance Pump features a horizontal design for easier pump loading, long life V-Max Blue™ packings and Chromex™ pump coating to create the most rugged and reliable pump on the market.

Taper Head

New creaser wheel design for precision corners.

Inline Handle

Dual trigger controls the creaser wheel and positively stops joint compound flow with no oozing.

15' Whip Hose

Increases flexibility.

Taper

Reduced weight to 7 lbs to reduce fatigue.

Flow Control

The industry's first radio frequency (RF) controlled pump controls the flow without wires right at the tool.

No-Tool Hose Connection

Makes a fast and secure connection.

Z-Swivel

Eliminates hose kinks.

Extreme-Duty Steel Frame and Flatproof Tires

Protects critical components from jobsite damage. Includes integrated tool tray for convenient storage of tools and accessories.

MaxPower Motor

The MaxPower motor is a totally-enclosed, fan-cooled design that protects the internal components from dirt, dust and joint compound. It features DC motor that never needs brushes, and Graco stands behind it with a lifetime warranty.

Max Flo™ Design

Max Flo fluid passages and large ball check valve efficiently loads thick joint compound.

25-Gallon Hopper

Includes airtight lid to preserve joint compound for next day use.

Internal Hopper Filter

Allows joint compound from the jobsite to be recycled without wipe-down trash.

Advantage Drive™ System

The critical link between the motor and pump, the Advantage Drive System of hardened steel gears is the longest lasting drive in the industry, and Graco stands behind it with a lifetime warranty.

CFPMP Bazooka® Continuous Flow Pump

Includes 50' Hose (257133), 15' Whip Hose (223756), Hopper Filter (16C298) and Z-Swivel (24D166).

B05CF Continuous Flow Taper

- BF07H** 7" Continuous Flow Box
- BF10H** 10" Continuous Flow Box
- BF12H** 12" Continuous Flow Box

Same feel and operation as standard AMES Finishing Boxes.

- B8034** 34" Continuous Flow Handle
- B8042** 42" Continuous Flow Handle
- B8054** 54" Continuous Flow Handle
- B8072** 72" Continuous Flow Handle

New tear-drop shape is ergonomically designed to be easier to grip and reduce fatigue. Securely locks the tear-drop handle to the finishing box. Patent pending pivoting head to improve joint compound flow.

- B14CF** 42" Continuous Flow Finishing Handle
- B14EC** 60" Continuous Flow Finishing Handle

Use with 40, 45, 48 or 48X Corner Finishers – Not Included

257133 1/2" x 50' NPT Hose

223756 15' Whip Hose

24D166 Z-Swivel

16C298 Replacement Filter

For Bazooka Continuous Flow pump.

CFILL Fill Kit

For standard automatic taping & finishing tools.

122267 Replacement Tire

For Bazooka Continuous Flow pump.

CFVLV Radio Frequency Controller

For Taper and Corner Finisher.

CFBXC Radio Frequency Controller

For Finishing Boxes.

Tool Wash Station

Power flushes all of the jobsite tools.

Tool Filling Station

Fills conventional taping tools even when the pump is running.

Quick-Release Pump

Tool-free pump removal for easy lifting up stairs or in and out of vehicles.
